Board Meetings

Usually the fourth Tuesday of the month at 6 p.m. at the PUD offices, 2345 River Rd. The public is always welcome.

Our Mission

To provide reliable, competitively-priced energy and related services that benefit our customers, in the tradition of public power.

Our Core Values and Beliefs

Local citizens championed and fought to create our People's Utility District. They believed—and we believe—in the public's right to own and control its electric utility.

Today, our values are a legacy from our public power heritage, as well as guideposts for a changing future.

We believe in:

- ▶ Public ownership and local control.
- ▶ Integrity.
- ▶ Keeping power rates as low as possible.
- ▶ Providing quality essential services.
- ▶ Quality customer service.
- ▶ Community involvement.

Manager's Report

Dear Customers – Our Friends and Our Neighbors,

On February 24, I was one of four guest speakers at the Clean Energy Forum at Columbia Gorge Community College. It was a pleasure to be invited and to share the PUD's ideas, perspectives and achievements. The program was arranged by members of CGCC's Delta Energy Club and sponsored by Focus the Nation. The club did an excellent job planning the forum, and it was well attended by both students and interested members of the community.

Prior to the program, instructors and students in the Renewable Energy Technology program conducted a tour for the speakers. The fine laboratories and classrooms coupled with the quality of the instructors and the dedication of the students in the program exemplifies the college's mission statement, "Columbia Gorge Community College builds dreams and transforms lives by providing lifelong educational programs that strengthen our community."

CGCC's Renewable Energy Technology (RET) Certificate Program of Wind Turbine Service Technicians is one of three programs to receive the American Wind Energy Association's 2011 Seal of Approval for technician training programs. Congratulations to all those who had the vision for this RET program and built the dream to transform lives. Well done!

Until next time, have a great day.

Dwight Langer
